

STATE OF CALIFORNIA

CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD

Base Year Modification Request Certification

Part 1: Generation Study - No Extrapolation Diversion Data

To request a substitution for a previously approved base year used in calculating the diversion rate for your jurisdiction, please complete and sign this form and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-6199 to be connected to your OLA representative.

Mail completed documents to:

California Integrated Waste Management Board  
Office of Local Assistance  
1001 I Street, (MS-25)  
PO Box 4025  
Sacramento, CA 95812-4025

General Instructions:

Please select the **ONE** choice below that best explains your request to the Board.

- ☐ 1. Use a recent generation-based study to calculate our current reporting year generation amount, but not officially change our existing Board-approved base year.
- ☒ 2. Use a recent generation-based study to officially change our existing Board-approved base year to a new base year.

The shaded cells on these sheets are protected. If you have problems using these sheets, please contact your Office of Local Assistance representative by calling (916) 341-6199.

**Section I: Jurisdiction Information and Certification**

*All respondents must complete this section.*

I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:

Jurisdiction Name		County	
Yolo County Planning and Public Works		Yolo County	
Authorized Signature 		Title Senior Civil Engineer	
Type/Print Name of Person Signing	Date	Phone ( ) Include Area Code	
Linda Sinderson	31-Jan-02	(530) 666-8859	
Person Completing This Form (please print or type)		Title	
Sarah Kittle		Recycling Specialist	
Affiliation: Yolo County Planning and Public Works			
Mailing Address		City	State ZIP Code
292 W. Beamer St.		Woodland	CA 95695
E-Mail Address <a href="mailto:sarah.kittle@yolocounty.org">sarah.kittle@yolocounty.org</a>			

**Section II: Information for New Generation-Based Study for Existing or New Base Year**

Attach additional sheets if necessary—reference each response to the appropriate cell number (e.g., "4").

*Note: New base years must be representative of a jurisdiction's disposal and diversion.*

1. Current Board-approved existing base year:	2. Proposed new generation-based study year:
1990	2000
3. Explain how the proposed generation study year is representative of average annual jurisdiction disposal and diversion:	
This new generation number reflects the current disposal and the diversion practices in the year 2000. The County has implemented and maintained numerous diversion practices in the last ten years, and is committed to continued diversion program expansion.	

**4. Enter diversion rate information below.**

Diversion rate calculated using existing base year	a. 37 %	Diversion rate calculated using new generation-based study	b. 60 %
For existing base year pounds/person/day based on generation	8.8	For new generation based study pounds/person/day based on generation	17.3
Residential generation 50 %	Non-Residential generation 50 %	Residential generation 9% %	Non-Residential generation 91% %
Population existing generation-based study 21,121		Population new generation-based study 21,450	
5. If there is an increase from 4a to 4b, please explain how the new diversion rate is consistent with your current diversion implementation efforts. If the proposed new generation tonnage results in an increase in your pounds/person/day, please explain how this is consistent with your current diversion implementation efforts and provide any examples (e.g., change in jurisdiction's demographics).			
This new diversion rate is the result of a detailed Waste Generation and Diversion Study. The study reflects the concentrated efforts the County and businesses have taken to increase recycling and diversion activities. Several new diversion programs, educational outreach, and technical assistance programs have been implemented in the County, as described in the PARIS section of the Annual Reports. This study also includes new and expanded programs at UC Davis, as well as the County's new roadside rehabilitation programs.			
6. If the difference between the proposed diversion rates in 4a and 4b is greater than 5 percentage points, please explain the specific reasons for the difference. (For example: new/improved curbside diversion programs.)			
The County is currently working to expand and improve existing programs. The default adjustment method does not accurately estimate the waste generation for the year 2000 or in future years, particularly in light of the 10 years which have occurred since the initial waste generation study, when not as much was known about the generated waste. The new study enabled the County to gain a clear understanding of the existing disposal and diversion activities from programs described in the PARIS section of the Annual Reports.			

<b>7. Disposal Tonnage (enter values):</b>	<b>4502</b>	<b>22704</b>	<b>27206</b>
	Residential	Non-Residential	Total

Please select the ONE choice below that best explains your disposal data and complete the required tables.

☒ a. All tons claimed are from the Board's Disposal Reporting System (No explanation required. Go to Section 8.)

☐ b. All tons claimed are from a 100 percent audit of hauler and self-haul tonnage. (Please complete Reporting Year Tonnage Request and Modification Certification sheet found at [www.ciwm.ca.gov/LGCentral/Forms/rytnmdrq.doc](http://www.ciwm.ca.gov/LGCentral/Forms/rytnmdrq.doc))

☐ c. Some Disposal Reporting System data were corrected. (Please complete Reporting Year Tonnage Modification Request and Certification sheet found at [www.ciwm.ca.gov/LGCentral/Forms/rytnmdrq.doc](http://www.ciwm.ca.gov/LGCentral/Forms/rytnmdrq.doc))

8. In the table below, list the summarized diversion activities, and diversion data records that support your claim and are available for Board audit. *Note: The Board expects the jurisdictions to be able to provide all back-up documentation, if requested.* Include type of record and location—for example, weight tickets from transfer stations. This section should capture all diversion tonnage (form will perform all addition calculations). If any diversion is from restricted wastes, agricultural wastes, inert solids [e.g., concrete, asphalt, dirt,] white goods, and scrap metal, please identify those programs/waste types and fill out Section 10. Please mark as Attachment 8 all copies of survey forms.

\*Please provide detailed Non-Residential waste information in Section 9.

**Note: The Board has indicated that it will be scrutinizing total source reduction amounts greater than 5% of total generation. Please be prepared to provide additional details substantiating your claim.**

## 9. Specific Non-Residential Sector Waste Audits--Top 10 Non-Residential Generators

Board Meeting

September 17, 18, 2003

Please complete this table for the top 10 non-residential generators that were surveyed. List each non-residential generator separately from largest to smallest, based on total diversion tons. Audit reference number ties to your audit sheets.

(Table will perform all addition calculations).

Agenda Item

Attachment 2a

Type of Non-Residential Generator	Audit Reference Number	Specific/Major Diversion Activities Include Material Type (e.g., paper recycling, grasscycling). (List activities on one line)	Source Reduction Tons	Recycling Tons	Composting Tons	Total Diversion Tons	Percent of Total Generation (Total Diversion Tons/Total Generation in Section 8)	Survey Method Phone (P) Mail (M) On-site (O) Other
County Roads Dept.		Asphalt recycling		27864		27864	41.2%	on-site
University		C&D, Paper, cardboard, cans, bottle, metals and greenwaste recycling, composting, grasscycling	570	4232	1838	6640.3	9.8%	letter
Golf Course		Grasscycling	835			835.1	1.2%	phone
Golf Course		Grasscycling	812.3			812.3	1.2%	phone
Golf Course		Grasscycling	265.7			265.7	0.4%	phone
Golf Course		Grasscycling	242.9			242.9	0.4%	phone
Golf Course		Grasscycling	197.4			197.4	0.3%	phone
Cemetery		Grasscycling	122.6			122.6	0.2%	phone
School		Grasscycling	81.0			81	0.1%	phone
School		Grasscycling	60.7			60.7	0.1%	phone
<b>Totals</b>			<b>3187.7</b>	<b>32096.3</b>	<b>1838</b>	<b>37122</b>	<b>54.9%</b>	

Also provide an attachment 9 which includes all of the generators surveyed. Include for each generator (use type of generator in lieu of specific business name) diversion activity and material type and associated tonnage for each diversion activity/material type, and applicable conversion factors/sources. Include copies of survey form(s) used.

Summarize the non-residential diversion activities for the top 10 generators quantification methodology, and applicable conversion factors and sources (e.g., cardboard recycling: quantified by monthly tonnage receipts provided by the contact person at the business).

See appendices

10. For each restricted waste type (i.e., agricultural waste, inert solids, [e.g. concrete, asphalt, dirt, etc.] scrap metals and white goods [PRC section 41781.2]) and associated program, please provide the following information:

a. If the diversion program started on or after January 1, 1990, complete the following table.

**Note:** program name refers to one specific diversion program for that waste type (e.g., "Diversion conducted by city public waste dept."

Restricted Waste Type	Specific Program Name	Year Started	Tonnage
White Goods	White goods/appliance recycling at Yolo County Central Landfill	1992	54
Scrap Metal	Scrap metal recycling at Yolo County Landfill	1992	52
Inert Solids	Inerts recycling at Yolo County Central Landfill	1995	1545
Inert Solids	Road Rehabilitation by Yolo County Public Works, Roads Dept.	1998	27864
Pull Down for Waste Types			
Pull Down for Waste Types			

b. If the diversion program started before January 1, 1990 - and if documentation on the program and waste type has not been approved by the Board - on a separate sheet marked "Attachment 10b", provide the documentation that indicates:

- How the diversion was the result of a local action taken by the jurisdiction, which specifically resulted in the diversion (PRC sec. 41781.2 [c] [1]).
- That the amount of that waste type diverted from the jurisdiction in 1990 was less than or equal to the amount of that waste type disposed at a permitted disposal facility by the jurisdiction in any year before 1990. (**Note:** this criterion is applicable to the entire jurisdiction, not to individual programs (PRC sec. 41781.2 [c] [2]). Please include documentation.
- That the jurisdiction is implementing, and will continue to implement, the diversion programs in its source reduction and recycling element.

**Note:** If documentation for a waste type and program has already been approved by the Board, you do not have to provide an attachment 10b for that waste type and program.

Instead please provide date of Board approval of previously submitted information.

(Date)

If documentation is not available, go to 10d.

c. If the diversion program started before January 1, 1990, and the documentation requested in 10b is available (but not yet approved by the Board), complete the table below for each program claimed:

Restricted Waste Type	Specific Program Name	New Base Year or Reporting Year Diversion Tonnage
Pull Down for Waste Types		
Pull Down for Waste Types		
Pull Down for Waste Types		
Pull Down for Waste Types		
Pull Down for Waste Types		
Pull Down for Waste Types		

d. If the diversion program started before January 1, 1990, and the documentation requested in 10b is not available, please complete the table below for each program claimed. **Note:** Only the difference between the new base year/reporting year and 1990 can be counted in the diversion rate calculation.

Restricted Waste Type	Specific Program Name	New Base Year or Reporting Year Tonnage	1990 Diversion Tonnage	Difference

Re: Recycling Numbers for the University of California, Davis

Dear Mr. Langer,

Per your request, these are the tonnages for the recycled materials during 2000 by the University of California, Davis:

- Mixed Paper: 590 tons ✓
- Cans and Bottles: 96.3 tons
- Metals: 620 tons ✓
- Green Waste: 202 tons ✓
- Cardboard: 235 tons ✓
- Organics (Straw and Manure): 1,636 tons ✓
- Construction and Demolition of the Sewage Treatment Plant: 6,319 tons (estimated) ✓
- Total Acres/ Square Footage of grass area that is grasscycled: 75 acres

Please give me a call at (530) 752-6970 if you have any further questions. Thank you.

Sincerely,

Lin King  
Program Manager  
R4 Recycling Program
